What services does the advice fee cover?

Superannuation assets are only able to be accessed to meet the costs associated with financial advice which is specific to your superannuation investment.

If the advice you receive is on a broad range of topics, only the portion of the fee relating to your superannuation may be met from your account. For example, the following financial advice areas are not permitted to be deducted from superannuation:

- broad advice on how you could best provide for your retirement; and
- advice to assist with maximizing your wealth generally, which may include budgeting and cash-flow analysis.

This is because fees for these services do not meet the 'sole purpose' of superannuation, which is to provide savings for use in retirement.

Your adviser will complete this section.
